

Capital City Cowboys

From the telegraph office

The weather kept changing, so did the publication of January's E-Letter. After a review of the weather forecast for Sunday, a poll was taken. Due to the 40 degree rule, there **will be** a cowboy match for January. The weather people say it will be above 40 by 10AM. We all know the weather people are never wrong and can plan on our first match of the year.

The gate should be open and locked back by 0800. The first six who want to shoot the match for free and want to help set up the range may sign in starting at 0830. At 0900 the sign up will reopen for all others to sign in. The match fee is still \$10.00. Under 18 with adult still shoot for free.

Spend some time by the fire and prepping for this year's matches. Land Run is in April at Oklahoma City. The Kansas Black Powder match is in May at Butterfield Gulch (Chapman). Spring Roundup is also in May at the Free State Rangers (Parker). Powder Creek will have POP in June. Go to the web sites of each to sign up or get more information.
